

**Belgian
non-CAM IP
products sold on
PRISMA via FCFS
module**

Fluxys Belgium – PRISMA
Thursday 8 June 2018 | Leipzig
Bert Martens

CLEAR POTENTIAL FOR STREAMLINING BOOKING PROCESS

Driver for change

Fluxys Belgium will bring more products to PRISMA as:

- ✓ *Shippers prefer to buy capacity in a standardized and predictable way*
- ✓ *Moving products to PRISMA is positive as long as this does not reduce market windows or increases lead times*
- ✓ *Making more products available on day ahead basis, reducing lead times and extending windows creates opportunities*

Proposal

Optimize sales approach by using a single, automated platform – PRISMA - to buy IP capacity in user-friendly and predictable way

- *Enabling FCFS for IPs that are not in the scope of CAM*
- *Keeping manual bookings (fax/mail) and processes as emergency back-up*

STREAMLINING SALES CHANNELS & DURATION

SERVICES		Sales Channel	Allocation method	Duration
Entry and Exit Services on IPs VIPs & LNG Terminal	Blaregnies L	PRISMA	Auction	Y, Q, M, DA, WD
